

A portrait of a middle-aged man with dark hair, wearing a white lab coat over blue scrubs. He is looking directly at the camera with a neutral expression. The background is a blurred clinical setting.

My patients always ask me...

Thomas Forest, M.D.
Urologist

“If it were you, what would you do?” If I was told today that I had prostate cancer, I’d definitely ask if I were a candidate for the da Vinci® Surgical Robot.

THE ARMS OF THAT ROBOT can do things that my hands just cannot. There’s much less blood loss. Recuperation time is amazing.

MY PEDIATRIC PATIENTS have also benefited from the preciseness of the da Vinci. It has helped to correct many urological problems in children.
